SMART GOALS

	**SPECIFIC** WHAT DO I WANT TO ACCOMPLISH?	I want to save at least $3500 from the tips I earn at work by the end of the school year. I have about $2950 so far.
	**MEASURABLE** HOW WILL I KNOW WHEN IT IS ACCOMPLISHED?	I will check my savings account on Memorial Day Weekend to see if I accomplished my goal.
	**ACHIEVABLE** HOW CAN THE GOAL BE ACCOMPLISHED?	I usually make about $75 a week in tips, but I can pick up more shifts to make up the difference.
	**RELEVANT** DOES THIS SEEM WORTHWHILE?	This is worth it because I want to have enough money at college to not have to worry about affording dinners out with friends.
	**TIME BOUND** WHEN CAN I ACCOMPLISH THIS GOAL?	I must be done by Memorial day because that is when I want to quit my job to have the summer for myself. That give me about two months.

SMART GOALS

	**SPECIFIC** WHAT DO I WANT TO ACCOMPLISH?	I want to visit my friend Aanya in texas. I need to afford plane tickets and buy them within the next month.
	**MEASURABLE** HOW WILL I KNOW WHEN IT IS ACCOMPLISHED?	I will buy the tickets within the next month. I will pay for them through my tips at work. They cost $400. I will go the second week of July.
	**ACHIEVABLE** HOW CAN THE GOAL BE ACCOMPLISHED?	I can afford the tickets and my accomodations are all paid for (I'm staying at my friends house.)
	**RELEVANT** DOES THIS SEEM WORTHWHILE?	This is worth it because my friend visited me last summer and it was the most fun thing that summer. I miss her and she's great.
	**TIME BOUND** WHEN CAN I ACCOMPLISH THIS GOAL?	I must have tickets within the month or they will cost too much later.
