Smart Goal Setting

S	Make it Specific	Get good grades in my classes, mostly A's by the end of the year
M	Make it Measurable	This will extend to the end of junior year, trying to keep those grades for 6 full terms
A	Make it Attainable	Study in my classes and create a schedule that I will stick to
R	Make it Relevant	Getting good grades will help my GPA and help me get into college
T	Make it Timely	This will extend to the end of the year

My Smart Goals

Specific

Earn an officer position in one of my favorite clubs

Measurable

This will extend to senior year, not just junior year

Achievable

I will dedicate my time to the club and write a good application

Relevant

This will help with my activities for college and will make me more motivated

Time-bound

This will end when I graduate, as high school clubs won;t be doable anymore
